## Accessible Software

Joseph Mark Caruana, FITA  
John Gannon, SAPPORIT

Life Skills Software Project Strand

## Overview

- FITA has designed educational software in Maltese which is also accessible for all, including persons with disability
- FITA creates this software to address gaps in service provision or queries submitted by disability NGOs and other entities.

3 / 8

## Dawra Madwarna

1. The project started in October 2013 with the collaboration of Mr John Gannon from Mtarfa Day Centre and a number of end users.
2. The software is made up of a multiple exercises that help students learn to live independently.
3. It is intended for pre-literate, illiterate persons or persons having intellectual difficulties.

4 / 8

## Examples

**X'se Niekol** offers a selection of recipes to cook.

**Għadu tajjeb** is an exercise to learn to understand expiry dates.

**Informazzjoni** is a section where the user is thought on how to search adverts.

## Informazzjoni u Kumunikazzjoni

**Kumunikazzjoni** speaks out and prints the sentences that the user enters on the screen

**Sib il-Kelma** is a wordsearch in Maltese.

A list of recipes is shown and the user selects which to see by clicking on the button at the bottom of the screen.
